

SKILLS FOR SECONDARY SCHOOL

It's time to start thinking about secondary school!

Going to secondary school is exciting, but don't forget that it is going to be very different from primary school. You are going to meet lots of new people and have lots of different teachers. Make sure you are working on these skills so you can make the most out of secondary school.

COMMUNICATION SKILLS

Communication skills are important because they help yourself and others to understand things clearly and quickly.

COLLABORATION SKILLS

Working together is an important life skill. You need to be able to listen to other people's ideas and opinions and combine them with your own so you can get the job done!

SELF-MANAGEMENT SKILLS

Self-management means taking control of your actions, feelings, and thoughts. That means you are responsible for your own learning and wellbeing. Learn to SPEAK UP if something is not ok.

SAY 'I DON'T KNOW'

Remember, it is always OK to say 'I don't know'. If you don't understand something in secondary school don't be afraid to say so
